ARTICLE V

If for any of its authorized purposes (including temporary construction purposes) the Commission shall find it necessary or convenient to acquire any real property in the Commonwealth of Pennsylvania or the State of New Jersey, whether for immediate or future use, the Commission may find and determine that such property, whether a fee simple absolute or a lesser interest is required for public use and, upon such determination, the said property shall be deemed to be required for a public use until otherwise determined by the Commission; and with the exceptions hereinafter specifically noted the said determination shall not be affected by the fact that such property has theretofore been taken for, or is then devoted to, a public use, but the public use in the hands or under the control of the Commission shall be deemed superior to the public use in the hands or under the control of any other person, association or corporation.

If the Commission is unable to agree with the owner or owners thereof upon terms for the acquisition of any such real property in the Commonwealth of Pennsylvania for any reason whatsoever, then the Commission may acquire such real property in the manner provided by Act Number Three Hundred and Thirty-Eight of the Commonwealth of Pennsylvania, approved July ninth, One thousand, nine hundred and nineteen, and acts amendatory thereof and supplementary thereto, for the acquisition of real property by the aforesaid Pennsylvania Commission.

If the Commission is unable to agree with the owner or owners thereof upon terms for the acquisition of any such real property in the State of New Jersey for any reason whatsoever, then the Commission may acquire, and is hereby authorized to acquire, such property, whether a fee simple absolute or a lesser interest, by condemnation or the exercise of the right of eminent domain, either under and pursuant to the provisions of the act of the State of New Jersey entitled, "An act to regulate the ascertainment and payment of compensation for property condemned or taken for public use" (Revision of nineteen hundred, approved March twentieth, nineteen hundred), and acts amendatory thereof and supplementary thereto, or under and pursuant to the provisions of an act entitled "An act concerning and regulating acquisition and taking of lands by the State of New Jersey or any agency thereof, providing a procedure therefor and the manner of making compensation for lands so taken," approved April twenty-first, one thousand, nine hundred and twenty, and the various acts amendatory thereof and supplementary thereto.

The power of the Commission to acquire real property by condemnation or the exercise of the power of eminent domain in the commonwealth of Pennsylvania and the State of New Jersey shall be a continuing power and no exercise thereof shall be deemed to exhaust it.

The Commission and its duly authorized agents and employees may enter upon any land in the Commonwealth of Pennsylvania or the State of New Jersey for the purpose of making such surveys, maps or other examinations thereof as it may deem necessary or convenient for its authorized purposes.

However, anything contrary contained in this compact notwithstanding, no property now or hereafter vested in or held by any county, city, borough, village, township, or other municipality, or port district shall be taken by the Commission without the consent of such municipality or port district unless expressly authorized so to do by the Commonwealth or State in which such municipality or port district is located. All counties, cities, boroughs, villages, townships, and other municipalities, and all public agencies and Commissions of the Commonwealth of Pennsylvania and the State of New Jersey, notwithstanding any contrary provision of law, are hereby authorized and empowered to grant and convey to the Commission upon its request, but not otherwise, upon reasonable terms and conditions, any real property which may be necessary or convenient to the effectuation of its authorized purposes, including real property already devoted to public use.

The Commonwealth of Pennsylvania and the State of New Jersey hereby consent to the use and occupation by the Commission of any real property of the said two States, or of either of them, which may be, or become, necessary or convenient to the effectuation of the authorized purposes of the Commission, including lands lying under water and lands already devoted to public use.

The term "real property" as used in this compact includes lands, structures, franchises and interests in land, including lands under water and riparian rights, and any and all things and rights usually included within the said term and includes not only fees simple absolute, but also any and all lesser interests such as easements, rights of way, uses, leases, licenses and all other incorporeal hereditaments, and every estate, interest or right, legal or equitable, including terms of years and liens thereon by way of judgments, mortgages or otherwise, and also claims for damage to real estate.

- (7) a five year capital plan.

Not less than once every five years, the Commission shall cause a management audit of its operational effectiveness and efficiency to be conducted by an independent consulting firm selected by the commission. The first management audit to be conducted shall commence within 3 years of the date of coming into force of the supplemental compact or agreement authorized by this 1991 Amendatory Act. This audit is in addition to any other audit which the Commission determines to conduct from time to time.

The Commission shall, not later than two years after the date of the coming into force of the supplemental compact or agreement authorized by this 1991 amendatory act, prepare a comprehensive master plan for the development of the Port District. The plan shall include, but not be limited to, plans for the construction, financing, development, reconstruction, purchase, lease, improvement, and operation of any terminal, terminal facility, transportation facility or any other facility of commerce or economic development activity. The master plan shall include the general location of such projects and facilities as may be included in the master plan and shall to the maximum extent practicable include, but not be limited to, a general description of each such project and facility, the land use requirements necessary therefor, and estimates of project costs and of a schedule for commencement of each such project. Prior to adopting such master plan, the Commission shall give written notice to, afford a reasonable opportunity for comment, consult with and consider any recommendations from State, county and municipal governments, as well as commissions, public corporations and authorities, and the private sector. The Commission may modify or change any part of the plan in the same form and manner as provided for the adoption of the original plan. At the time the Commission authorizes any project or facility, the Commission shall promptly provide to the Governor and Legislature of each State a detailed report on the project, including its status within the master plan. The Commission shall include within the authorization a status of the project or facility in the master plan and any amendment thereof, and no project shall be authorized if not included

in the master plan or amendment thereof. Any project which has been commenced and approved by the Commission prior to the adoption of the master plan shall be included, for informational purposes only, in the master plan. The Commission shall provide notice of such on-going projects to those State, county and municipal governments, as well as entities in the private sector who would be entitled to such notice had the project not been commenced in anticipation of adopting the master plan, but there shall be no requirement that the project be delayed or deferred due to these provisions.

In addition to other powers conferred upon it, and not in limitation thereof, the Commission may acquire all right, title and interest in and to the Tacony-Palmyra bridge, across the Delaware River at Palmyra, New Jersey, together with any approaches and interests in real property necessary thereto. The acquisition of such bridge, approaches and interests by the Commission shall be by purchase or by condemnation in accordance with the provisions of the Federal law consenting to or authorizing the construction of such bridge or approaches; or the acquisition of such bridge, approaches or interests by the Commission shall be pursuant to and in accordance with the provisions of sections 48:5-22 and 48:5-23 of the Revised Statutes of New Jersey, and for all the purposes of said provisions and sections the Commission is hereby appointed as the agency of the State of New Jersey and Commonwealth of Pennsylvania exercising the rights and powers granted or reserved by said Federal law or sections to the State of New Jersey and the Commonwealth of Pennsylvania jointly or to the State of New Jersey acting in conjunction with the Commonwealth of Pennsylvania. The Commission shall have authority to so acquire such bridge, approaches and interests, whether the same be owned, held, operated or maintained by any private person, firm, partnership, company, association or corporation or by any instrumentality, public body, commission, public agency or political subdivision (including any county or municipality) of, or created by or in, the State of New Jersey or the Commonwealth of Pennsylvania, or by any instrumentality, public body, commission, or public agency of, or created by or in, a political subdivision (including any county or municipality) of the State of New Jersey or the Commonwealth of Pennsylvania. None of the provisions of the preceding paragraph shall be applicable with respect to the acquisition by the commission, pursuant to this paragraph, of said Tacony-Palmyra bridge, approaches and interests. The power and authority herein granted to the Commission to acquire said Tacony-Palmyra Bridge approaches and interests shall not be exercised unless and until the Governor of the State of New Jersey and the Governor of the Commonwealth of Pennsylvania have filed with the Commission their written consents to such acquisition.

Notwithstanding any provision of this agreement, nothing herein contained shall be construed to limit or impair any right or power granted or to be granted to the Pennsylvania Turnpike Commission or the New Jersey Turnpike Authority, to finance, construct, operate, and maintain the Pennsylvania Turnpike System or any turnpike project of the New Jersey Turnpike Authority, respectively, throughout the Port District, including the right and power, acting alone or in conjunction with each other, to provide for the financing, construction, operation, and maintenance of one bridge across the Delaware River south of the city of Trenton in the State of New Jersey; provided that such bridge shall not be constructed within a distance of ten miles, measured along the boundary line between the Commonwealth of Pennsylvania and the State of New Jersey, from the existing bridge,

operated and maintained by the commission, across the Delaware River between the city of Philadelphia in the Commonwealth of Pennsylvania and the city of Camden in the State of New Jersey, so long as there are any outstanding bonds or other securities or obligations of the Commission for which the tolls, rents, rates, or other revenues, or any part thereof, of said existing bridge shall have been pledged. Nothing contained in this agreement shall be construed to authorize the Commission to condemn any such bridge.

Anything herein contained to the contrary notwithstanding, no bridge or tunnel shall be constructed, acquired, operated, or maintained by the Commission across or under the Delaware River north of the boundary line between Bucks County and Philadelphia county in the Commonwealth of Pennsylvania as extended across the Delaware River to the New Jersey shore of said river, and any new bridge or tunnel authorized by or pursuant to this compact or agreement to be constructed or erected by the Commission may be constructed or erected at any location south of said boundary line notwithstanding the terms and provisions of any other agreement between the Commonwealth of Pennsylvania and the State of New Jersey. Except as may hereafter be otherwise provided in conformity with Article IX hereof with respect to specific properties designated by action of the Legislatures of both of the signatory States, no property or facility owned or controlled by the Commission shall be acquired from it by any exercise of powers of condemnation or eminent domain.

(b) To pledge for the security or payment of any bonds or other obligations of the Commission any moneys of the Commission either presently received or in hand or to be received in the future, or both.

(c) To make expenditures anywhere in the United States and foreign countries, to pay commissions, and hire or contract with experts and consultants, and otherwise to do indirectly anything which the Commission may do directly.

(d) To have and exercise such additional powers as may hereafter be delegated to or imposed upon it from time to time by act of the Legislature of either signatory State concurred in by act of the Legislature of the other.

(4) Notwithstanding any of the provisions of this Article, the Commission shall not, in connection with the bridge or tunnel referred to in this article, construct any approach or highway connection in the Commonwealth of Pennsylvania unless and until the Department of Highways of said Commonwealth shall have filed with the Commission its written consent to such construction, and the Commission shall not, in connection with said bridge or tunnel, construct any approach or highway connection in the State of New Jersey unless and until the State Highway Department of said State shall have filed with the Commission its written consent to such construction. The moneys in this special reserve fund may be expended and used by the Commission for the construction, maintenance and operation of approaches and highway connections, and no moneys in said fund shall be applied to any purpose except (1) such construction, maintenance or operation, (2) temporary investment pending some other authorized application or (3) any other purpose authorized by the Commission and approved in writing by the Governors of the signatory States. The Governors for the time being of the signatory States are authorized from time to time to make and sign any and all approvals contemplated by this paragraph and any such approvals so made and signed by both Governors shall be binding upon the signatory States and the said Governors and their successors, and shall not be revoked or amended except with the consent of the Commission.

(6) Any pledge of tolls, rates, rents or revenues, or any part thereof, or of any moneys of the Commission made or created by the Commission pursuant to Article VIII or any other provision hereof shall be valid and binding from the time when the pledge is made; the revenues or other moneys so pledged and thereafter received by the Commission shall immediately be subject to the lien of such pledge without any physical

delivery thereof or further act; the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Commission, irrespective of whether such parties have notice thereof; and neither the resolution nor any other instrument by which such a pledge is created need be filed or recorded except in the records of the Commission.

ARTICLE XII-B

(1) In addition to other public purposes provided for it and other powers and duties conferred upon it, and not in limitation thereof, and notwithstanding the provisions of any other article hereof, the Commission shall have among its authorized purposes, and it shall have the power to effectuate, the construction, operation and maintenance of a bridge for vehicular traffic across the Delaware River, between a point or points in the Township of Logan, New Jersey, and a point or points in the City of Chester, Pennsylvania, including approaches thereto.

(2) In addition to other public purposes provided for it and other powers and duties conferred upon it, and not in limitation thereof, and notwithstanding the provisions of any other Article hereof, the Commission shall have among its authorized purposes, and it shall have the power to effectuate, the establishment, rehabilitation, equipment, construction, maintenance and operation of ferries for passengers and vehicular traffic over and across the Delaware River within the Port District between the Commonwealth of Pennsylvania

and the State of New Jersey. Such ferries may be established either directly by purchase, lease or contract, or by lease or agreement with any other public or private body or corporation, or in any other manner, and may be established by utilizing any existing ferries within the Port District across the Delaware River between said Commonwealth and said State and by the construction or provision of new facilities where deemed necessary. Any such ferry may include such approach highways and interests in land or other property necessary therefor in the Commonwealth of Pennsylvania or the State of New Jersey as may be determined by the Commission to be necessary to facilitate the flow of traffic in the vicinity of any such ferry or to connect any such ferry with the highway system or other traffic facilities in said Commonwealth or said State.

(3) (a) For the effectuation of any of its purposes authorized by this article, the Commission is hereby granted, in addition to any other powers heretofore or hereafter granted to it, power and authority to acquire in its name by purchase or otherwise, on such terms and conditions and in such manner as it may deem proper, or by the exercise of the power of eminent domain, any such land and other property which it may determine is reasonably necessary to acquire for any of its purposes authorized by this article and any and all rights, title and interest in such land and other property, including public lands, parks, playgrounds, reservations, highways, or parkways, owned by or in which any county, city, borough, town, township, village, or other political subdivision of the State of New Jersey or the Commonwealth of Pennsylvania has any right, title or interest, or parts thereof or rights therein, and any fee simple absolute or any lesser interest in private property, and any fee simple absolute in, easements upon, or the benefit of restrictions upon, abutting property to preserve and protect such land and other property. Upon the exercise of the power of eminent domain under this paragraph, the compensation to be paid with regard to property located in the State of New Jersey shall be ascertained and paid in the manner provided in Title 20 of the Revised Statutes of New Jersey insofar as the provisions thereof are applicable and not inconsistent with the provision contained in this paragraph, and with regard to property located in the Commonwealth of Pennsylvania shall be ascertained and paid in the manner provided by the act approved the ninth day of July, one thousand nine hundred nineteen (Pamphlet Laws 814) and acts amendatory thereof and supplementary thereto, insofar as the provisions are applicable and not inconsistent with the provisions contained in this paragraph. The Commission may join in separate subdivisions in one petition or complaint the descriptions of any number of tracts or parcels of such land and other property to be condemned, and the names of any number of owners and other parties who may have an interest therein, and all such land and other property included in said petition or complaint may be condemned in a single proceeding: Provided, however, That separate awards shall be made for each tract or parcel of such land or other property: And provided further, That each of said tracts or parcels of such land or other property lies wholly in or has a substantial part of its value lying wholly within the same county.

(b) Whenever the Commission acquires under this paragraph (3) the whole or any part of the right of way of a public utility located in the Commonwealth of Pennsylvania, the Commission shall, at its own expense, provide a substitute right of way on another and

favorable location. Such public utility shall thereupon provide for the transfer to, or reconstruction upon, in, under or above said substitute right of way of any structures and facilities of said public utility located upon, in, under or above said original right of way at the time the same is so acquired. The Commission is hereby authorized to enter into agreements with such public utility to contribute toward the expense of such transfer or reconstruction, and in the event that they are unable to agree on the amount to be paid, the matter shall be referred to the Pennsylvania Public Utility Commission which shall, after hearing thereon, make a finding of the amount to be paid to such public utility by the Commission. In case of failure of such public utility, within a reasonable time after notice so to do, to remove its facilities to such substitute right of way, the Pennsylvania Public Utility Commission shall have jurisdiction, on petition of the Commission, to order such transfer or reconstruction. Any party to such proceedings shall have the right of appeal from the ruling of the Pennsylvania Public Utility Commission. The Delaware River Port Authority is hereby authorized to acquire, by purchase or by the exercise of the power of eminent domain, any necessary land or right of way for the relocation of any such public utility right of way and facilities. The substitute right of way thus acquired shall be equal in estate to the original right of way acquired from the public utility, and the Commission shall deliver to the public utility a deed, duly executed and acknowledged, conveying to it an estate in the substitute right of way at least equal to that owned by the public utility in the original right of way, or if such a substitute right of way is to be acquired by purchase, the Commission shall procure and deliver to the public utility a deed conveying such estate to it from the owner of the land on which such substitute right of way is located.

This sub-paragraph (b) shall have no application to the relocation of public utility facilities located in the beds of public streets, roads or highways.

(c) In addition to any other powers heretofore or hereafter granted to it, the Commission, in connection with construction or operation of any project for the effectuation of any of its purposes authorized by this article, shall have power to make reasonable regulations for the installation, construction, maintenance, repair, renewal, relocation and removal of tracks, pipes, mains, conduits, cables, wires, towers, poles or any other equipment and appliances (in this sub-paragraph (c) called "works") located in the State of New Jersey of any public utility as defined in section 48:2-13 of the revised statutes of New Jersey, in, on, along, over or under any such project. Whenever in connection with the construction or operation of any such project the Commission shall determine that it is necessary that any such works, which now are or hereafter may be located in, on, along, over or under any such project should be relocated in such project, or should be removed therefrom, the public utility owning or operating such works shall relocate or remove the same in accordance with the order of the Commission, provided, however, That, except in the case of the relocation or removal of such works located in, on, along, over or under public streets, roads or highways, the cost and expenses of such relocation or removal, including the cost of installing such works in a new location or new locations, and the cost of any lands or any rights or interest in lands or any other rights acquired to accomplish such relocation or removal, less the cost of any lands or any rights or interests in lands or any other rights of the public utility paid to the public utility in connection with the relocation

or removal of such works, shall be paid by the Commission and shall be included in the cost of such project. In case of any such relocation or removal of works as aforesaid, the public utility owning or operating the same, its successors or assigns, may maintain and operate such works, with the necessary appurtenances, in the new location or new locations for as long a period, and upon the same terms and conditions, as it had the right to maintain and operate such works in their former location.

In case of any such relocation or removal of works, as aforesaid, the Commission shall own and maintain, repair and renew structures within the rights of way of railroad companies carrying any such project over railroads, and the Commission shall bear the cost of maintenance, repair and renewal of structures within the rights of way of railroad companies carrying railroads over any such project, but this provision shall not relieve any railroad company from responsibility for damage caused to any authority or railroad structure by the operation of its railroad. Such approaches, curbing, sidewalk paving, guard rails on approaches and surface paving on such projects as shall be within the rights of way of a railroad company or companies shall be owned and maintained, repaired and renewed by the Commission; rails, pipes and lines shall be owned and maintained, repaired and renewed by the railroad company or companies.

(4) The power and authority granted in this article to the Commission to construct new or additional approach highways shall not be exercised unless and until the Department of Highways of the Commonwealth of Pennsylvania shall have filed with the Commission its written approval as to approach highways to be located in said Commonwealth and the State Highway Department of the State of New Jersey shall have filed with the Commission its written approval as to approach highways to be located in said State.

(5) The effectuation of any of the purposes authorized by this article, and the exercise or performance by the Commission of any of its powers or duties in connection with effectuation of any such purpose, shall not be subject to any restrictions, limitations or provisions provided for or set forth in Article XII hereof. The bridge or ferries referred to in this article may be established, constructed or erected by the Commission notwithstanding the terms and provisions of any other agreement between the Commonwealth of Pennsylvania and the State of New Jersey.

(6) The Commission shall not construct or erect the bridge referred to in this Article unless and until the Governor of the State of New Jersey and the Governor of the Commonwealth of Pennsylvania shall have filed with the Commission their written consents to such construction or erection.

(7) The Commission is hereby granted the following powers in addition to any other powers heretofore or hereafter granted to it:

(a) To abandon, close off, dismantle, sell or otherwise dispose of, any project or facility, or any part thereof, or any other property, which the Commission may determine to be no longer useful or necessary for public use.

(b) To effectuate any of its authorized purposes either directly or indirectly by or through wholly owned subsidiary corporations. Any such subsidiary corporation shall be a public corporate instrumentality of the Commonwealth of Pennsylvania and the State of New Jersey for such purposes and shall be deemed to be exercising an essential governmental function in effectuating such purposes. Any such subsidiary corporation and any of its property, functions and activities shall have such of the privileges, immunities, tax and other exemptions of the Commission and of the Commission's property, functions and activities, and such of the rights, powers and duties of the Commission, as the Commission shall determine.

(8) The power of the Commission, which is hereby confirmed, to purchase, construct, lease, finance, operate, maintain and own a terminal facility consisting in whole or in part of a parking area or place, garage, building, improvement, structure, or other accommodation for the parking or storage of motor or other vehicles, including all real or personal property necessary or desirable in connection therewith, shall, notwithstanding any other provision of this agreement, be exercised only at such place, in the vicinity of and in connection with, or as a part of any bridge, tunnel, ferry, railroad, rapid transit system, transportation or terminal facility, as the Commission may determine to be necessary or desirable.
